

Chapter Mission Statement

The Silicon Valley chapter of the Oncology Nursing Society is committed to provide mechanisms to further the professional development of the individual members within the chapter.

A secondary but equally important mission is to provide an atmosphere of collegial, professional and emotional support to the chapter membership throughout the continued transition in health care as it exists in the state of California and as it evolves throughout the nation.

ONS Core Values

Innovation . Excellence . Advocacy

Silicon Valley Oncology Nursing Society 2018 Program Brochure

About us

ONS chapters connect you to dedicated nurses who care about patient and public outreach, and provide a professional network as you're advancing your career. Many chapters partner with healthcare organizations to offer continuing nursing education and dinner programs.

Local chapter affiliation is automatically included with your ONS membership. Your ONS national dues rebate \$10 to your local chapter for programs and services.

Your chapter membership is determined by your zip code and is noted on the home page of your ONS profile. However, you can change your chapter affiliation at any time, or join additional chapters for only \$10 annually when you renew your membership or join ONS. Please contact customer relations at 866-257-4667 (toll-free) or help@ons.org to add or change your affiliation.

The annual cost is \$10/chapter.
